

## English

Our story for this half term is "Ghadar the Ghoul", a story from Palestine about dreadful creatures called Ghouls (which are a bit like Trolls) who live at the top of mountains.

We will:

- Re-tell the story and innovate it
- Create fact-files
- Write biographies

**Computing** How do we use social media? We will explore how to use the internet to communicate with others.

Year 4

## Peacock and Barn Owl

With all of our wonderful research and newly discovered facts, we will produce a fun fact file about mountains and mountaineers to be read and shared with all.

Alongside our fabulous encyclopaedias, we will be presenting our 3D mountain models and explaining the forces that change the landscapes over time.

## Maths

Year 4 will be starting their year by practising their place value up to 10,000! Ordering, comparing, rounding and partitioning numbers will give us the foundation to get our maths learning underway! We will extend our understanding by exploring Roman Numerals and negative numbers!

# How do landscapes change over time?

## PSHCE

One of our 3 R's is respect. We will discover the diversity around the world and celebrate the differences we share as well as the similarities.

## Spanish

Hola! This term, we will begin our Spanish lessons with some basic greetings and practising our manners. Experts in the group will take a leadership role!

## Geography

We will be exploring the seven highest summits across the globe. We will investigate how they are formed, the varying climates and we will create our own 3D model to share what we have learned.

## Science

This term, we will explore the rock cycle in more detail and apply what we know to understand further How mountains change over time.

## PE

In Year 4, we have the great opportunity to learning and developing our swim skills – Barn Owls will be in the pool this term! Peacocks will be focusing on dance and netball skills!
